The purpose of French IV Honors is to prepare students for intermediate level college French classes, as well as to more effectively communicate with native speakers of the language on a wider variety of topics, including current events around the globe. Upon completing French 4 Honors, students should be able speak and write with more accuracy about the past, present, and future, as well as hypothetical situations. This class is taught in an immersion environment, and students are expected to make every effort to communicate in French. Students will practice being able to communicate an idea even if they do not know the exact wording to use. Making mistakes is how we learn!
